2: Referring Agency and Reason for Referral to a MAPP Meeting

Referral was by South Wales Police following a recommendation from the police Independent Advisory Group. This was taken to the routine MAPPA Screening meeting held in the Vale of Glamorgan and this meeting agreed that a referral to level 3 be made.

Referral information:

Maurice John Kirk has a long history with law enforcement agencies with a number of criminal convictions together with a large number of civil actions and complaints being instigated. At present Kirk has just over 100 civil actions pending against South Wales Police focused on a variety of individuals.

Kirk is renowned globally for his exploits in a plane in that he crashed his plane in the Atlantic several years ago and was rescued by the US coastguard. To thank the nation he attempted to fly his plane into the ranch of President George Bush. He has been involved in a similar exploit when he wanted to serve a letter on HRH Prince of Wales at Highgrove but his attempts were frustrated.

In February 2009 Legal Services, the Courts and Dolmans, the solicitors representing South Wales Police, decided that it would be more appropriate to request Chief Constable Wilding to swear an affidavit re the civil actions. Kirk took exception to this in that having been served with the affidavit he stated that the statements made by the Chief Constable were false and that he wished to arrest her. Kirk attended police headquarters and attempted to enter to make an arrest. This was unsuccessful and he was taken to Bridgend Police Station where he made a complaint against the officers who spoke with him and the Chief Constable.

A series of protective measures were then instigated surrounding the Chief Constable with close protection being provided for all public engagements.

MAPPA Executive Summary

M J Kirk

In March 2009 Kirk attended Cardiff County Court where he reiterated to the Judge that he would be arresting the Chief Constable of South Wales Police.

Further intelligence was gathered regarding Kirk from his open source website, "Flying Vets". On this website were a number of highly concerning issues:

- 1. A picture of South Wales Police Authority members stating, "well I know where a few of these live."*
- 2. A picture of Maurice Kirk holding a large machine gun with a magazine attached offering this for sale for £4000.00 with live ammunition. This was posted in August 2008 and removed shortly afterwards.*
- 3. A £10000.00 reward is being offered for information relating to the whereabouts lifestyle, registration numbers, family, friends, associates, clubs, schools etc of 25 individuals. Those listed begin with Chief Constable Barbara Wilding followed by a list of serving and retired police officers and staff, members of the community other law enforcement officials. This was posted in April 2009*
- 4. Kirk also details his anti establishment views together with his attendance at G8/G20.*

This intelligence has been further examined and more recently the picture of Kirk brandishing the firearm has been placed on the site three times with comments to the effect, " This will level the playing field at County Court," and " The final solution."

South Wales Police are obviously treating this matter very seriously with two key objectives:

- To protect members of the community, police staff and witnesses.*
- To investigate criminal activity.*

There are three aspects to this as it proceeds; the criminal investigation, civil process and the risk management. A meeting was held with IAG members on 1st June 2009 where the circumstances of the investigation were relayed to them, one of their recommendations was for Maurice Kirk to be referred for consideration for MAPPA, and the rationale for this was:

- 1. Kirk has been assessed previously for mental health issues, but at this stage is only being addressed as vulnerable person due to his unpredictable nature.*
- 2. Kirk has a number of previous convictions some for assault and assault police and therefore has the potential to cause serious harm.*
- 3. Kirk is not only pictured with a section 1 firearm, for sale and making threats but also has access to other firearms lawfully held by his wife a vet. Two shotguns and three humane killing firearms.*
- 4. Kirk has already made an attempt to arrest Chief Constable Wilding.*

MAPPA Executive Summary
M J Kirk

5. *South Wales Police suspect that as the civil case draws closer Kirk's behaviour surrounding police/ public witnesses will become more unpredictable.*
6. *At the point when positive action is taken in relation to Kirk and dependent on the outcome the threat posed to all concerned will be significantly aggravated.*

Direct police action to investigate firearms concerns will also raise the risk to identified victims.'
