REFUSED COURT TRANSCRIPTS

Dear Sir,

Royal Courts of Justice refuse to supply Kirk v South Wales Police Record when I was refused a Jury Trial, saying 'Tape is corrupted'!

Transcribers gave up last year, trying to obtain the tape for Kirk v South Wales Police, relating to 'Joint Enterprise' of the Chief Constable and my refused bail, the excuse from the court being I am under an 'extended civil restraint order' (ECR) and investigation continues, under HM Treasury Solicitor, re: 'vexatious litigant' that has caused over 130 of my court files to leave the Civil Justice Centre, some never to return.

Now, my sister tells me transcripts from some of my 10 court appearances since June 2009, are 'unavailable' for my outstanding bail applications. I would be pleased to hear your excuse and to receive your reply in writing.

Court hearings have been transcribed, promised by Judges that they must come to me. I find they were either not transcribed or C.P.S., only, obtained them following their infighting as to just which barrister is to represent Her Majesty at the 25th January trial, knowing their string of lies at 24th June, 25th June, 16th July, 30th July and especially 1st October and 2nd and 17th December hearings, opposing my bail, will go public worldwide.
