Dear Mrs May,

MAPPA Machine-Gun Conspiracy

1. My imprisonment is from your Chief Constable 'framing me up' to be 'lawfully' shot
2. She had concocted I had been in 'possession' of a prohibited reactivated machine-gun
3. To do this she did a deal with the arms dealer then on the run from the US Authorities
4. The 'purchaser' was also promised immunity to prosecution if he also gave evidence.
5. On 22nd June 09 police helicopter & 20 odd police, many armed, surrounded our home
6. It was to have me killed and if it failed to snatch our 10 year old daughter, Genevieve
7. Weeks before Ms Wilding had me MAPPA level 3 cat 3 registered for 'elimination'.
8. She blackmailed her chief forensic psychiatrist, Dr Tegwyn Mel Williams, as plan B.
9. In Dec 09 she applied I be further sectioned but to Ashworth high security psychiatric hospital, indefinitely, for 'significant irreversible brain damage' by a possible cancer.
10. The machine-gun case could not be stopped as no UK psychiatrist would support him so she painted the 'gun' a different colour to fool jury and in it had a police 'plant'.
11. She also dreamed up 'foxy', a transvestite, purported to have contacted us to buy it.
12. After acquittal, without need of a defence, she refused any complaints be investigated as Dr Williams was set up as her 'harassment target' after GMC was 'warned off'.
13. Interesting, as FTAC and CPS had 'thrown out' South Wales Police's stupid allegations as experts had already supplied Dr Williams with my clear brain scans.
14. Interesting, as my 2009 damages claims, against her, were due to be heard following her having lost 1st 36 of now 50 failed malicious criminal prosecutions against me.
15. I also filed a civil claim against the police doctor for 'perverting the course of justice' and for conspiring with the Chief Constable for need of the machine-gun total fiasco.
16. I now find my 1993 claim with the 36 returned from RCJ to Wales to also be quashed
17. Surprising is it, then, my 'gun' damages claim is now delayed until next year, by 9th time denied access to Cardiff courts, so delaying a scandal by 10 years, for me to die.
18. Dr Williams was promised prosecution immunity so why wasn't anyone else told of this blackmailed induced cancer/PDD conclusion or at least, offer me palliative care?
19. Gaoled to avoid 300 witnesses for incidents such as 'smuggling Irish pigs by aircraft', prison as 'unidentifiable', 'low level' helicopter chase, found on HRH's farm with 'garrotte' type instrument & many daft 'motoring' of her 89% conviction failure rate.
20. I was 'harassment' charged so Dr cannot 'correct' his 19th Oct 09 para35 medical report as Cardiff court evidence & transcripts had been destroyed in the 'cover-up'.
21. No 'restraining order' was ever served irrespective of my defence in law, now proved
22. Successive MAPPA controlled prisons block my hospital & court appointments, even when I was on parole, as these local police know of my diagnosed medical condition explaining why, on 18th Dec 17, Judge Tracy Lloyd Clarke had no 'authority' to act.

It stinks, doesn't it?
